

Welcome to Our Hackathon Discord Server!

This quick start guide will help you navigate and make the most out of our Discord server. Whether you're a hacker, mentor, expert, challenge owner, or jury member, these steps will ensure a smooth experience.

Navigating Discord

Understanding Channels

- **Text Channels:** Identified by a  symbol. Here, you can type messages, share files, and links.
- **Voice/Video Channels:** Identified by a speaker icon. Join these to talk or video chat.

Participating in Channels

- **Text Channels:** Click a channel to open it. Type your message in the text box and press  to send.
- **Voice Channels:** Click to join. You can speak with your microphone and listen in. Click 'Video' to start your camera.

Direct Messages (DM)

- Click on a user's name or avatar to open a direct message tab for private conversations.

Essential Communication Tips

Muting and Deafening

- In voice channels, use the microphone icon to mute/unmute yourself and the headphone icon to deafen/undeafen.

Adjusting User Settings

- Click the gear icon (User Settings) near your username (bottom left) to adjust your microphone, camera, notifications, and more.

Using Mentions and Notifications

- Mention someone using `@username` to notify them directly.
- Mention a role with `@role` (like `@Mentor`) to notify all users with that role.
- Adjust your notification settings in each channel as needed.

Uploading Files and Images

- Drag and drop files into the chat window or use the upload button for sharing.

Reacting to Messages

- Click on the emoji icon in a message to add a reaction.

Getting Help

- If you need assistance or have questions, head over to the support channels and choose under which category your question falls or ask it in a `#general` chat.

Reminder: Code of Conduct

- Please adhere to our community guidelines of respect, professionalism, and collaboration.

We're excited to have you here and look forward to the amazing ideas and projects that will come out of this hackathon. Let's make it a great experience for everyone!
