

FAQ Block A Results

Q1. I failed on a prerequisite, what does this mean?

- For Block A the general prerequisites were that you needed to submit a **complete learning log, work log and self-assessment rubric**. If you were missing any of these files / they were not fully completed, you would have scored 0 for the Block.
- **ILO 3-** In addition to the above, you must have submitted the presentation slides and/or complete the Brightspace DataLab Preparation quizzes by the specified deadlines.
- **ILO 7-** In addition to the above, for this ILO you needed to have correctly evidenced your dashboard, CRISP-DM report, raw data files & any processed data files in Section C of your learning log for it to be graded.
- **ILO 10-** In addition to the above, for this ILO you needed to have correctly evidenced your dashboard and CRISP-DM report in Section C of your learning log for it to be graded.

Q2. If I failed on a prerequisite, how do I do the repeat?

- You need to ensure you provide all the correct files and other evidence in the second opportunity submission at the end of Block B as mentioned in Q1 above.

Q3. How do I repeat *Insert ILO number here*?

- For all ILOs / work you want to be considered for the second opportunity you must **highlight the changes**, for example in a yellow colour. **Add a new slide at the beginning of Section C** saying this is a retake and all changes are highlighted in e.g. yellow or another colour.
- **ILO (Maths)-** Another Maths exam will be scheduled. ([see Q6. When are the second opportunities?](#))
- **ILO (Python)-** Another Python exam (written & oral) will be scheduled. ([see Q6. When are the second opportunities?](#))
- **ILO 1 & 2-**
 - At the end of the Block B, use the learning logs, work log, your attendance record to prove that you meet the criteria for the professional ILOs.
- **ILO 3-**
 - For the presentation, if you missed the original deadline or wish to improve your grade, you are required to do the presentation again.

- For the quizzes they must be completed and submitted before the deadline at the end of Block B ([see Q6. When are the second opportunities?](#))
- **ILO 7 & 10-**
 - You can check with your evaluator on what was missing in your work in order to correctly resubmit and / or improve your grade.
 - If you have missed the final SDG dashboard presentation, you are not required to present the dashboard again. You only need to submit the dashboard, CRISP-DM report, raw and any processed data files.

Q3. According to my graded rubric, I did not provide evidence, what does this mean?

This means that:

- You did not provide an evidence link in Section C of your learning log for the particular ILO.
- OR**
- You shared a link that was not accessible to the person grading your work. For example, a private SharePoint link.
- OR**
- The link did not point specifically to the file e.g. your dashboard or CRISP-DM and it could not be easily found in your GitHub e.g. your SDG project was not clearly labelled in a folder called Deliverables.
- OR**
- You did not submit the presentation slides for the 'AI in Science Fiction' presentation to Brightspace Assignments before the set deadline.

Q4. If I failed on evidence, how do I do the repeat?

- This will generally be an easy fix of providing the correct evidence link in the second opportunity submission at the end of Block B.

Q5. How do I register for the second opportunity?

- From your student homepage, navigate to the URL - <https://buas.osiris-student.nl/voortgang>
- In the Osiris Home Page, you will have to register for the second opportunity (Project Name: **FAI1.P1-01 Project 1A 2024 TOETS01 Project Opportunity 2 Year 1 Block A**).
- Remember that you must register in Osiris to be considered for evaluation.
- For a step-by-step process you can follow [this guide](#).

Q6. When are the second opportunities?

- The Python & Maths exams, the 'AI in Science Fiction' presentation repeats will take place on **Monday 16th December** (further details to be provided later). **To confirm your participation in these retakes, you must also fill in the designated [Microsoft Form](#).**
- **ILO 3-**
 - Presentation slides, in PDF-format, must be submitted before 17:00 on the 16th of December
 - Brightspace quizzes must be completed and submitted before 17:00 on the 24th of January under Brightspace Assignments (i.e., 'AI in Science Fiction' Presentation (Second Opportunity))
 - Additionally, you may need to deliver your presentation on the 16th of December (timeslots will be announced later)
- **ILO 7 & 10-** The dashboard, CRISP-DM report, raw data files and any processed data files must be submitted before 17:00 on the 24th of January (the end of Block B)

Q7. I failed a component of the Block e.g. the Maths exam, but passed the Block overall, do I have to repeat what I failed?

- No. If you want to improve your grade however, you can do a component again if you wish. The higher grade of the two attempts will be taken into consideration, so do not worry if you score lower in the second opportunity!

Q8. I want to improve my grade in a particular component of Block A, can I do this?

- Of course! You have the opportunity to retake any of the exams, the presentation or the SDG project to improve your grade.

Q9. What is a Binding Study Advice (BSA)?

- In the first year of the ADSAI program you will be able to obtain 60 credits (i.e. 15 per block).
- The BSA exists to give students an honest advice about whether BUas thinks this program is the right fit for them. The BSA's are handed out by the Board of Examiners (BoE) of the academy.
- After Block A, you will receive a letter from the BoE through Osiris based on your block A results. In this letter they notify you of your credits at that point, and explain the BSA procedure.

- At the end of block D, you will receive the official BSA, which is by default positive if you have obtained 60 credits in the first year. If you did not get the 60 credits, there are two options: negative, or postponed.
- With a negative advice, you are not allowed to continue your study at BUas in the next academic year. You are always allowed to appeal a decision and talk to the BoE after the advice is given out.
- With a postponed advice, the BoE will give you another chance to obtain the credits in the next academic year, and re-evaluates your advice after one year.
- If you have any personal circumstances that might prevent you from obtaining 60 credits, or impact your ability to study, contact the student counsellors as soon as possible.
